

**You recently spoke up in
the face of prejudice.
You rock!** You get it that we all de-
serve safety and respect at school. You
get it that it doesn't matter ...

- how masculine or feminine someone is
- who they like or love
- whether they're trans or queer or not
- whether they're gay, lesbian, bi, straight or not sure

- who their family is
- what color they are
- what religion they are (if they're any re-
ligion)

- what languages they speak
- where they come from
- how much money their family has
- how old they are
- what abilities and disabilities they have
