We have been participating in the OSPI-convened work group that is writing the new rules for schools regarding preventing and responding to discrimination. (9) PREVIEW THE LATEST, HOT-HOT-OFF-THE-PRESSES TEACHING TOLERANCE FILM

- a) Entitled ***Bullied: A Student, a School and a Case That Made History***, it is the story of Jamie Nabozny, the first gay youth ever to sue his district and individual administrators for not protecting him from years of anti-gay violence at school. He won nearly \$1 million. SSC has been asked to endorse the film; we agreed to do so, enthusiastically. We will also provide a link on our website, co-host a screening at Seattle LGBT film festival if asked [ed. Note: we have been asked], and offer a quote in their promotional material. Beth suggested and we agreed to this review:

The film tells the story of Jamie Nabozny, the first gay young person ever to sue his school district for not protecting him from years of anti-gay violence at school. He won the case against the individual administrators and settled for nearly \$1 million. The film humanizes Jamie through his warm, genuine explanation of his childhood. It features him, having grown into a confident man and an eloquent speaker, addressing a student body. It uses a combination of interviews and reenactment to make crystal clear what happened to Jamie at the hands of his peers and the callous responses of his schools' administrators. It shows various strategies Jamie tried in order to survive, along with the efforts of his parents and some of his teachers to act as allies. The courtroom drama segment -- based on actual transcripts -- is an amazing training tool for the continuing education of educators. Every faculty meeting across the country needs to set aside time to show Bullied. And every student body needs an assembly and small group discussions about the film and about all forms of bias-based bullying. It will change norms and offer hope to young people who have been the targets of bullying. As one of his teachers says in the film, "One brave young man ...stood up for millions of others." Jamie changed his school district and other schools all over the country. Jamie himself closes the film by saying to the camera, "If I can do that, anyone can do that."

- c) Thank you, Southern Poverty Law Center
